Heidelberg University examination rules and regulations for the Master's degree programme in Byzantine Archaeology and Art History

as of 25 July 2007

Section I: General provisions

- § 1 Purpose of the academic programme and examination
- § 2 Master's degree
- § 3 Standard period of study, programme structure and range of courses offered
- § 4 Modules, credits and list of grades
- § 5 Examinations board
- § 6 Examiners and observers
- § 7 Recognition of course credits, examination results and academic degrees
- § 8 Unexcused absences, withdrawal, deception and breaches of regulations
- § 9 Types of examinations completed during the course of study
- § 10 Oral examination components completed during the course of study
- § 11 Written examination components completed during the course of study
- § 12 Assessment of examinations

Section II: Master's examination

- § 13 Master's examination admission requirements
- § 14 Master's examination admission procedure
- § 15 Scope and nature of the Master's examination
- § 16 Master's thesis
- § 17 Submission and assessment of Master's thesis
- § 18 Final oral examination
- § 19 Passing the examination and overall grade
- § 20 Retaking an examination component and deadlines
- § 21 Master's diploma and certificate

Section III: Final provisions

- § 22 Invalidity of examinations
- § 23 Access to examination documents
- § 24 Coming into force

Section I: General provisions

§ 1 Purpose of the academic programme and examination

- (1) The objective of the Master's degree programme in Byzantine Archaeology and Art History (BA) is the study of the visual legacy of the cultures of the Byzantine millenium, which is marked by the diverse interrelations with the Greek-Roman antiquity as well as relationships with neighbouring cultures of the Western and Eastern Mediterranean. This Master's degree programme is a consecutive degree programme based on an interdisciplinary bachelor's degree programme with a 50% major subject of Byzantine Archaeology and Art History, and provides an interdisciplinary approach to specialised research-oriented studies. The objective is not only to deepen the subject-specific and methodological knowledge and competencies already acquired but also to qualify students for independent scientific work, and prepare them for occupations in cultural sciences professions.
- (2) The purpose of the Master of Arts examinations is to assess whether students have an overview of the interconnections within their subject, have the ability to apply in-depth academic methods and knowledge, and are able work independently following sound academic principles.
- (3) The requirements for admission to this degree programme are set forth in the Admission Regulations, published separately.

§ 2 Master's degree

Upon successful completion of the Master's examination, Heidelberg University will confer the academic degree of "Master of Arts" (abbreviated to M.A.).

§ 3 Standard period of study, programme structure and range of courses offered

- (1) The standard period of study for the Master's degree programme is four semesters, including examinations and Master's thesis.
- (2) Lectures and courses in the Master's degree programme run for three semesters: the Master's thesis is to be completed within the fourth semester. Successful completion of the Master's degree programme requires a total of 120 credit points (CP) in both compulsory and elective courses.
- (3) The Master's programme is a modular programme and comprises one major and one minor subject. The total of 120 CP is comprised of 70 CP from specialised lectures and courses within the degree programme of Byzantine Archaeology and Art History, and the final oral examination, as well as 20 CP from the minor subject and 30 CP from the Master's thesis. The modules required and the corresponding courses and lectures in Byzantine Archaeology

and Art History as major or minor subject may be found in Appendix 1.

- (4) The following language skills constitute a prerequisite for the Master's degree programme in Byzantine Archaeology and Art History: Latin Proficiency Certificate (Latinum) and Greek Proficiency Certificate (Graecum). If these language skills cannot be proven, the candidate will have the opportunity to acquire them independently during the course of study; however, documentation of proof has to be submitted before the admission to the Master's thesis. An admission to the Master's thesis may only be authorised after submission of the Latinum and Graecum.
- (5) Generally, any subject may be taken as a minor subject, provided that the subject in question is offered as a Master's programme.
- (6) Generally, the language of instruction and examinations is German. Lectures and courses may be also given and examinations taken partially or completely in English.

§ 4 Modules, credits and list of grades

- (1) A module is a teaching unit, self-contained in terms of both time and content and comprised of various lectures and courses. It not only comprises the lectures and courses attended, but also the components necessary for a passing grade in the module.
- (2) The Master's thesis and the final oral examination are regarded as individual modules.
- (3) A distinction is made between
 - compulsory modules: these must be completed by all students
 - compulsory elective modules: students may select these from a limited subject area.
- (4) All components within a module must be graded as "sufficient" (4.0) or higher (=sub-module grades) for the complete module to be passed.
- (5) Credits are given for successfully completed modules, including their individual components. One credit corresponds to a workload of 30 hours.
- (6) A grade report (Transcript of Records) will be issued at the end of each semester, listing all module and sub-module examinations students have passed, including the corresponding credits and grades.

§ 5 Examinations board

- (1) The examinations board of the Faculty of Philosophy is responsible for the organisation of examinations and the tasks required by the examination rules and regulations. It is made up of two professors, a research assistant representative, and a student, who serves in an advisory capacity. The faculty council appoints the chairperson, the deputy, and the other members of the examinations board for a period of two years each. The student member is appointed for one year. The chairperson and the deputy must be professors.
- (2) The examinations board ensures that the examination rules and regulations are upheld and provides recommendations for further improving the curriculum and the examination rules and regulations. It appoints the examiners and observers involved in examinations. The examinations board may delegate these appointments to its chairperson or to another person authorised by the Institute. The board may be called upon for all questions regarding examinations.
- (3) The chairperson manages the business of the examinations board, prepares and chairs meetings and, in the event of a tie vote, has the deciding vote.
- (4) The examinations board may confer further responsibility on its chairperson, or another person authorised by the Institute, provided this does not violate applicable law. Such a decision may be revoked at any time. The examinations board must be informed on a regular basis about the execution of these tasks.
- (5) Examinations board members have the right to attend examinations.
- (6) Members of the examinations board, examiners, and observers are obligated to maintain professional confidentiality. Those who are not civil servants are sworn to secrecy by the chairperson.
- (7) The candidate must be informed of negative decisions of the examinations board immediately and in writing; the reasons for the decision must be stipulated and information on the procedure for appeal must be provided.
- (8) The Joint Examination Office provides support to the examinations board and executes its decisions.

§ 6 Examiners and observers

- (1) In general, examinations which are not completed during the course of study may only be carried out by professors, lecturers, associate professors, or research associates who have been granted the right to conduct examinations due to longstanding teaching experience in the Master's degree programme. Research assistants, research associates, adjunct lecturers and lecturers with special responsibilities may only be appointed to conduct examinations under exceptional circumstances, when there is not enough qualified faculty personnel available to conduct examinations.
- (2) Examinations held during the course of study are usually conducted by the

teacher of the course in question.

- (3) Observers must have sat the corresponding Master's examination or equivalent.
- (4) The candidate is permitted to make a proposal for examiners for the Master's thesis and the final oral examination; however, this does not constitute entitlement to be examined by a particular examiner.
- (5) The chairperson of the examinations board ensures that candidates are given sufficient advance notice of examiners' names.

§ 7 Recognition of course credits, examination results and academic degrees

- (1) Examination prerequisites and results, as well as academic degrees obtained through degree programmes at German universities or universities of cooperative education (state or state-recognised), or at foreign universities (state or state-recognised), will be recognised as long as there is no significant difference concerning the skills acquired, courses taken and degree obtained through the programme. This recognition is required in order to continue an academic programme, take examinations, start a further academic programme or be admitted to a doctoral programme. The validity of § 15, paragraph 3 and 4 LBG (State Public Service Law) remains unaffected.
- (2) Preliminary and intermediate examinations taken at other German universities in the same degree programme or in a similar degree programme will be recognised. Courses completed at recognised distance-learning institutions will be considered equivalent to those in a corresponding traditional degree programme with regard to determining the duration of study.
- (3) It is the applicant's responsibility to provide all information necessary for achievements to be recognised. It is the responsibility of the office which carries out the recognition procedure to prove that an application does not fulfil the requirements.
- (4) If agreements exist between the Federal Republic of Germany and other states concerning equivalent university degree programmes (Equivalency Agreements) that favour students from other states by way of derogation from paragraph 1 and § 29, paragraph 2, sentence 5 of the LHG (Act on Higher Education of the Land of Baden-Württemberg), the rules and regulations in the Equivalency Agreement take precedence.
- (5) Examination results are to be graded on the basis of a credit point system that allows for achievements in equivalent or similar degree programmes to be recognised; this also applies to universities of cooperative education, provided there is equivalence.
- (6) Knowledge and skills gained outside a university degree programme may be recognised for such a programme, as long as

1. the requirements for university admission are fulfilled at the time of recognition,
2. the knowledge and skills to be recognised for the university degree programme are equivalent in both content and level to the course credits and examinations which they should replace, and
3. the criteria for recognition have been verified in an accreditation.

Knowledge and skills gained outside a university degree programme may not replace more than 50% of the university degree programme. Universities will define the details in the established examination rules and regulations; in particular, under which conditions, and to what extent, knowledge and skills gained outside a university degree programme will be recognised. The examination rules and regulations may require the completion of a placement test.

- (7) In case of refresher courses, credit points may be given for courses and examinations. When recognising credits from refresher courses for a university degree programme, paragraphs 2 and 5, as well as paragraph 6 sentence 1, no. 1 apply accordingly. When recognising knowledge and skills gained outside a university degree programme for refresher courses, paragraph 6 applies accordingly.

§ 8 Unexcused absence, withdrawal, exceeding of deadlines and deception

- (1) An examination is graded as "failed" (5.0), if a candidate fails to appear and is unable to provide a valid reason for his or her absence, or, if the candidate withdraws after the examination has started. The same applies if the candidate fails to provide a written examination by the established deadline, unless the candidate is not at fault for the deadline being exceeded.
- (2) Reasons for withdrawal or absence must be plausible and must immediately be submitted in writing to the examinations board. If the candidate, or a child for whom the candidate is generally the sole caregiver, is ill, a medical certificate must be provided. In the event of doubt, a medical certificate from a designated physician may be required. If the reasons stated are accepted, a new examination appointment will be scheduled. In this circumstance, examination results that are already available will be taken into account.
- (3) When deciding whether the candidate is at fault for exceeding a deadline for registration or taking an examination, the examinations board must respect the provisions stated in the Maternity Protection Act and the legal regulations concerning parental leave, and allow candidates to make appropriate use of these provisions.
- (4) If the candidate tries to influence the examination results through deception or by using unauthorised aids, the examination results will be graded as "failed" (5.0). If candidates disrupt the proper course of the examination, they may be excluded from taking further part in the examination by the examiner or examination supervisor, in which case the examination result will be graded as

"failed" (5.0). In extreme cases, the examinations board may exclude the candidate from all further examinations.

- (5) With regard to paragraph 4, sentences 1 and 2, within a period of 7 days, the candidate may request that the decision be validated by the examinations board. The candidate must be informed of negative decisions immediately and in writing; the reasons for the decision must be stipulated and information on the procedure for appeal must be provided.

§ 9 Types of examinations completed during the course of study

- (1) Examinations completed during the course of study are:

1. oral examinations
2. written examinations (electronically, where applicable).

- (2) If candidates provide a medical certificate that plausibly proves that they are not able to take examinations in the form prescribed, whether completely or partially, due to permanent or chronic health problems, the examinations board may allow them to take an equivalent examination. The same applies for other course requirements.

§ 10 Oral examinations completed during the course of study

- (1) In oral examinations, candidates should be able to prove that they are able to identify interrelationships within the examination subject matter and relate specified problems to these interrelationships. Additionally, the purpose of the oral examination is to assess whether the candidate has adequate basic knowledge of the field of study.
- (2) An oral examination lasts between 15 and 30 minutes. The duration of group examinations depends on the number of candidates to be examined (15 minutes per candidate).

§ 11 Written examinations completed during the course of study

- (1) In written examinations, candidates should show that they are able to recognise problems relating to their subject and find solutions for them, using subject-specific methods and within limited time and resources.
- (2) A written examination lasts between 60 and 120 minutes. Multiple choice questions are permitted.
- (3) If a written examination component is taken as a term paper, candidates must assure that they are the authors of their work and have used no sources or aids other than those indicated.

- (4) The evaluation period for written examinations should not exceed four weeks.

§ 12 Assessment of examinations

- (1) Grades for the individual examination components are determined by the respective examiners. The following grades must be used for assessment of examinations:

1 = very good	an outstanding performance;
2 = good	performance which is substantially above average requirements;
3 = satisfactory	performance which fulfils average requirements;
4 = sufficient	performance which, despite deficiencies, still meets the requirements;
5 = failed	performance which, due to considerable deficiencies, does not meet the requirements.

For more detailed assessment of examination results, grades may be further differentiated by increasing or decreasing the individual grades by 0.3; however, the grade 0.7 and incremental grades above 4.0 may not be used.

- (2) The final module grade is calculated on the basis of the unrounded values of module examination components corresponding to the number of credit points. If a final examination is to be completed within a module, this final module examination grade constitutes the grade for this module.

- (3) Grading for the final module grade, the subject grade, and overall bachelor's examination grade is as follows:

average of up to and including 1.5	very good
average of between 1.6 and up to/including 2.5	good
average of between 2.6 and up to/including 3.5	satisfactory
average of between 3.6 and up to/including 4.0	sufficient

- (4) When calculating final module grades, subject grades and the overall bachelor's examination grade, only the first digit after the decimal point is taken into account, without rounding. The overall Master's grade is assessed in accordance with § 19, paragraph 2.

- (5) In addition to the German-system grades, students who have passed the examinations will also be awarded a letter grade according to the following scale:

A	top 10 %
B	the subsequent 25 %

- C the subsequent 30 %
- D the subsequent 25 %
- E the subsequent 10 %

The letter grades are calculated based on the examination results of the total graduating class, as well as the graduating classes from two or more previous years, depending on the number of students in the current graduating class. For degree grades, the ECTS grade must be added. For individual modules, the ECTS grade may be listed when possible and necessary.

Section II: Master's examination

§ 13 Master's examination admission requirements

- (1) Admission to the examinations for the Master's examination in Byzantine Archaeology and Art History will only be authorised for students who:
 1. are enrolled in the Master's degree programme in Byzantine Archaeology and Art History at Heidelberg University,
 2. have not lost their entitlement to take the final examinations in the Master's degree programme in Byzantine Archaeology and Art History.
- (2) The following certificates must be provided for admission to the Master's thesis:
 1. successful completion of modules and courses set forth in Appendix 1, comprising a total of 50 credit points, from the major subject Byzantine Archaeology and Art History, as well as 10 credit points from the minor subject,
 2. submission of the Graecum and Latinum.
- (3) The candidate may only begin to work on the Master's thesis when the final oral examination has been passed.

§ 14 Master's examination admission procedure

- (1) The application for admission to the examination must be made in writing, addressed to the chairperson of the examinations board. The application must include the following documents:
 1. evidence of fulfilment of the admission requirements in accordance with § 13 paragraph 1,
 2. declarations from candidates, stating whether they have previously failed a Master's examination in the Byzantine Archaeology and Art History bachelor's programme, or whether they are currently undergoing an examination procedure in such a programme.
- (2) If candidates are unable to provide such evidence, the examinations board may allow other documents of proof to be accepted.

- (3) The application is the basis for the examinations board's decision as to whether the candidate may be admitted to the examination. Denials must be made in writing, stating the reasons and providing information on the procedure for appeal.
- (4) The application for admission to the examination may only be denied if:
1. conditions are not fulfilled in accordance with § 13 paragraph 1, or
 2. documents set forth in paragraph 1 are not complete, and have not been completed upon request, or
 3. candidates have failed their final attempt at the Master's examination in Byzantine Archaeology and Art History or have lost the entitlement to take the final examinations, or
 4. the candidate is currently undergoing examination procedures in such a degree programme.

§ 15 Scope and nature of the Master's examination

- (1) The Master's examination consists of:
1. successful completion of the examinations for the modules and courses set forth in Appendix 1,
 2. successful completion of the examinations for the modules and courses for the minor subject,
 3. the Master's thesis
 4. the final oral examination.
- (2) The examinations referred to in paragraph 1, no. 1 are taken as an integrated part of their respective lectures or courses. They may be in written or oral form. The lecturer responsible for a lecture or course determines the nature and duration of the integrated examinations and provides this information no later than the beginning of the lecture or course. For examinations in the minor subject, the respective programme rules and regulations apply.
- (3) The components of the Master's examination must be taken in the following order:
examinations completed during the course of study (paragraph 1, no. 1)
and examinations in the minor subject (paragraph 1, no. 2)
Master's thesis (paragraph 1, no. 3)
final oral examination (paragraph 1, number 4).
- (4) § 9 paragraph 2 applies accordingly.

§ 16 Master's thesis

- (1) The purpose of the Master's thesis is for candidates to prove that they are able to work independently, within a given period of time and using academic

methods, to address a problem from the field of Byzantine Archaeology and Art History.

- (2) In accordance with § 6 paragraph 1, sentence 1, the Master's thesis may be assigned and supervised by any authorised examiner in the Byzantine Archaeology and Art History department. The assignment and supervision of a qualified examiner from another department at Heidelberg University requires the prior consent of the examinations board.
- (3) In accordance with § 15, paragraph 1, number 1, the candidate must begin work on the Master's thesis no later than two weeks after the successful completion of the last examination completed during the course of study, or, must have by that time submitted an application to the chairperson of the examinations board for the assignment of a topic. If the deadline is not met, the Master's thesis will be graded as "failed" (5.0), unless the candidate is not at fault for the deadline being exceeded.
- (4) The topic of the Master's thesis will be determined by the thesis supervisor. If an application for assignment of a topic is submitted, the chairperson of the examinations board will ensure that the candidate receives a topic for the Master's thesis in timely fashion. The candidate is permitted to propose topics; however, this does not constitute entitlement to a particular topic. The thesis topic will be assigned by the chairperson of the examinations board; the date of assignment must be recorded.
- (5) The deadline for submission of the thesis is five months following assignment of the topic. In exceptional cases, the examinations board, in consultation with the supervisor, may extend this deadline by up to two months. If the deadline is not met, the Master's thesis will be graded as "failed" (5.0), unless the candidate is not at fault for the deadline being exceeded.
- (6) The topic, task and scope of the Master's thesis must be limited in such a way that the candidate should be able to complete the thesis within the given time frame. The topic may only be rejected once, and only within the first month after the date of assignment.
- (7) The Master's thesis may be written in German or English. Upon approval of the examinations board, the thesis may also be written in other languages.

§ 17 Submission and assessment of Master's thesis

- (1) Three copies of the Master's thesis must be submitted to the examinations board before the established deadline; the submission date must be recorded. The thesis must contain a summary.
- (2) When submitting a Master's thesis, candidates must certify in writing that they are the authors of their work and have used no sources or aids other than those indicated.

- (3) The Master's thesis will be assessed by two examiners, one of whom must be a professor. The first examiner will be the thesis supervisor. The second examiner will be appointed by the examinations board. The candidate is permitted to make a proposal; however this does not constitute entitlement to be examined by a particular examiner. The evaluation period should not exceed six weeks.
- (4) The grade is calculated as the mean of both evaluations; § 12 applies accordingly. If the grades differ by more than one grade point, the examinations board will determine the bachelor's thesis grade after consulting both examiners. In such cases, a third examiner may be consulted.

§ 18 Final oral examination

- (1) The purpose of the final oral examination is for candidates to prove that they have Mastered the interrelationships between the individual disciplines of their subject, and are able to assess special problems accordingly. Additionally, the purpose of the oral examination is to assess whether the candidate has profound basic and specialised knowledge in limited fields of the subjects to be examined.
- (2) The final oral examination will be held by two examiners, or one examiner and one qualified observer. The candidate is permitted to make a proposal; however, this does not constitute entitlement to be examined by a particular examiner. The chairperson of the examinations board ensures that candidates are given sufficient advance notice of examiners' names.
- (3) In accordance with § 15, paragraph 1, no. 1, candidates must take the final oral examination no later than four weeks after the submission of the Master's thesis. If this deadline is not met, the final oral examination will be graded as "failed" (5.0), unless the candidate is not at fault for the deadline being exceeded.
- (4) Upon approval of the examiners, the candidate may propose three topics for the final oral examination, in which areas he or she will be examined.
- (5) The final oral examination lasts approximately 60 minutes.
- (6) Upon request of the candidate, the final oral examination will be held in German or English. The validity of § 3, paragraph 5 remains unaffected.
- (7) The topics examined and the results of the oral examination must be recorded in a written report. Following the oral examination, candidates must be notified of examination results.
- (8) Students wishing to take a subject examination at a later examination date will be permitted to attend the same examination for another candidate, as long as room is available. However, the visitor may not be present for assessment or announcement of the examination result. Upon request of the candidate, or for

other valid reasons, the examination may be closed to visitors.

§ 19 Passing the examination and overall grade

- (1) The Master's examination is passed when all examination components as set forth in § 15, paragraph 1 have been graded as "sufficient" (4.0) or higher.
- (2) For the calculation of the overall grade in accordance with § 12, paragraph 3, the module grades are weighted according to the number of credit points earned. In accordance with § 12 paragraph 4, the numerical values of the module grades, before rounding, will be used for this calculation.
- (3) When calculating the overall grade, the Master's thesis will be weighted by a factor of 4, the final oral examination by a factor of 2, and the other modules by a factor of 1.

§ 20 Retaking an examination component and deadlines

- (1) If examinations are not passed, or are not considered to have been passed, they may be retaken once. This includes failed examinations at other universities. A second re-examination is permitted only under exceptional circumstances and only for a maximum of two examinations completed during the course of study. The examinations board makes the decision to grant permission for a second re-examination. A second re-examination for the Master's thesis or the final oral examination is not permitted.
- (2) Retaking an examination that has been graded as passed is not permitted.
- (3) Failed examinations must be retaken no later than during the following semester. If candidates fail to meet this deadline, they will lose entitlement to take this examination, unless they are not at fault for the deadline being exceeded.
- (4) If a compulsory module examination is failed on the final attempt, the candidate will be dismissed from the academic programme. Failure of compulsory elective modules and optional modules may be offset by the successful completion of a different module.

§ 21 Master's diploma and certificate

- (1) Once the Master's examination is passed, a diploma will be issued within four weeks. This will list all individual modules with their respective grades (graded in accordance with § 12, paragraphs 3 and 4, and numerical value) and credit points, as well as the grade and topic of the Master's thesis, and the overall grade of the Master's examinations. The diploma will be dated with the date of the last examination component. It must be signed by the dean and the

chairperson of the examinations board.

- (2) A "Diploma Supplement" in German and English will also be provided, containing additional information about the course content and the course of study. This content complies with the "European Diploma Supplement Model".
- (3) A bilingual Master's certificate in German and English is issued with the diploma, bearing the same date as the diploma. It certifies the conferment of the academic degree "Master of Arts". The Master's certificate is signed by the dean and the chairperson of the examinations board. It bears the university seal.
- (4) If the Master's examination is failed at the final attempt or is considered not to have been passed, the chairperson will issue a written notification, providing information on the procedure for appeal. A certificate will be issued upon request, and upon presentation of documentation of proof and a certificate of withdrawal, listing passed examinations and their grades, missing examinations required for obtaining the Master's degree, and a statement that, on the final attempt, the Master's examination has not been passed.

Section III: Final provisions

§ 22 Invalidity of examinations

- (1) If a candidate has cheated on an examination and this is not discovered until after the diploma has been issued, the examinations board may, accordingly, correct the examination results that were affected by the cheating and may declare the examination to be partially or completely failed.
- (2) If the requirements for admission to the examination were not fulfilled, but without any intent on the candidate's part to deceive and this is not discovered until after the diploma has been issued, the passed examination will be considered to compensate for this shortcoming. If the candidate intentionally gained admission to the examination through deceit, the examinations board will make a decision on the matter.
- (3) Before the decision is made, the candidate will be given the opportunity to provide an explanation.
- (4) Fraudulent examination diplomas will be confiscated and, if necessary, a new diploma will be issued. If the examination has been graded as "failed" due to cheating or deception, the Master's certificate "Master of Arts" will be confiscated along with the fraudulent examination diploma. The statute of limitations for rendering a decision such as described in paragraph 1 and paragraph 2, sentence 2, is five years from the date on the examination diploma.

§ 23 Access to examination documents

After the examination procedure has been completed, the candidate has the right to request access to examination documents within a reasonable period of time. Requests must be made in writing and within a period of up to one year after the examination process. The chairperson of the examinations board will decide when and where such access will be given.

§ 24 Coming into force

These examination rules and regulations come into force on 01 October 2007.

Appendix 1:

A. Modules, Lectures and Courses of the Master's Degree Programme in "Byzantine Archaeology and Art History"

Byzantine archaeology and art history as major subject: 75%, 29 WSH, 70 CP

Abbreviations: L - Lecture; MS - Main Seminar; E - Excursion; ES - Excursion Seminar; C - Colloquium; I - Internship; T - Tutorial; LC - Language Course
